

Council on Foundations – Values Aligned Scenarios
Discussion Questions

- What aspect of the situations would intersect with or contradict ACF's mission, anti-hate statement, and/or values?
- What additional information would you need in such situations in order to know if ACF should act on its concerns?
- If the concerns are validated, what actions should ACF take?
- Why would it be the best course of action?
- Are there any risks in that course of action?
- How will ACF inform both internal and external stakeholders of your decision?
